### Andrew Barclay 0-4-0 - "Tom Parry"

This locomotive was built by Andrew Barclay in 1935 and was supplied new to the Central Portland Cement Company Ltd, Kirton Lindsey in Lincolnshire. Following the withdrawal of the locomotive from service at their Houghton Regis plant in Bedfordshire in 1967 APCM donated it to Quanton Railway Society. This Locomotive has recently undergone an extensive nut and bolt cosmetic restoration (The loco has been restored for display purposes only). No expense spared. We had planned to keep this for a lifetime but now have had a change of circumstances and it is no longer required. The "Railway Retreats" is in vinyl so can be removed easily. The remaining pinstriping has been done by hand. Must be seen to be appreciated. only. £ POA.

### Lever Frame believed date around 1905.

Complete, sand blasted, painted ready for re-assembly. Reluctant sale due to being no longer needed.
