STEAM LOCO

We are seeking expressions of interest from organisations or individuals who might be interested in a **contract overhaul** of the bottom end of our 18" 0-6-0 OC Barclay, NO 2107 of 1941 which will start in early 2027. We are also looking to hire or possible purchase a **replacement steam locomotive** to cover the time period that the above loco is out of service. We offer secure undercover storage at all time and it will be steamed about 25 times a year on average. Ideally we are looking for something 14" or above and ideally on 6 wheels, but may consider others

.WANTED

We are seeking to acquire a **Mk1 passenger brake** vehicle and possible a **SK.**

FOR SALE

We have an 07-16 series **Tamper DR 73274** for sale. If not sold as a complete unit we would welcome enquiries for spares. We believe that it is either works or is close to being in working condition but we have never used it. We are happy to accept offers just over the current scrap value. It weighs 46 tons.

Rolls Royce engine C6 265R with Clutch and Radiator. working when recently removed from machine, looks to have fairly recently had a full overhaul by LH group.

FLAT CAP MANAGEMENT

LEISURE, MINOR AND HERITAGE RAILWAY CONSULTANCY

Rail Operations & Compliance Consulting

With over 20 years' experience across standard gauge mainline and heritage railways, narrow gauge systems, and leisure park operations, I provide practical, real-world rail consulting that works on the ground—not just on paper.

Whether you're developing a new operation, improving compliance, preparing for audit, or delivering infrastructure and rollingstock projects, I offer clear, practical guidance backed by years of hands-on experience.

Get in touch to discuss your project, challenges, or compliance needs.
